

2027 SUMMER RESEARCH INTERNSHIP

MAY 10–JUNE 18, 2027

Northeast Georgia Medical Center (NGMC) Graduate Medical Education (GME) is looking for passionate and committed junior and senior undergraduate students wanting to enrich their medical school applications with a robust six-week research internship!

Program Purpose

The purpose of the GME Research Summer Internship Program is to provide high-quality clinical and research experiences for pre-medical students who are new to the clinical environment and passionate about improving the health of the northeast Georgia community. By investing in their growth, we strengthen the future healthcare workforce and empower students who are passionate about improving the health of northeast Georgia.

Criteria for Intern Selection

To meet the purpose of the GME Summer Research Internship Program, the below criteria will be evaluated to select candidates for the internship:

1. **Academic Performance - Measured by both GPA and GA med school Science course requirement completion**
2. **New to the clinical learning environment and research**
3. **Alignment with NGHS' mission in personal statement**
4. **Georgia Residency/Local connection**

Application deadline of January 1 or until we receive 50 applicants.
